From the Principal's Desk

I feel delighted to reach you through this page. The college in its eighteen years has been catering to the educational needs of the students through its sprawling green campus, dedicated and diligent faculties, innovative teaching pedagogies and our hallmark the extracurricular activities which help to churn out the best.

Our college has steadfastly adhered to the motto of moulding minds. The team of dedicated faculty have enlarged and enriched Jamnagar's education graph. Each year the college prepares a plethora of activities which help students to exhibit their talents and carve a niche for themselves.

I fully endorse the thought given by Swami Vivekananda, who said, "Education is the manifestation of the perfection already in man". I believe students need a platform to evolve, to shed their inhibitions and advance into confident citizens, endowed with the right values of heart and mind.

I wish the faculties and the students an amazing and memorable experience in this college and hope that our bond last forever.

Mrs. Snehal Kotak Palan
(I/C Principal)

From the Chief Editor's Desk

It is a platform for students to exhibit their talents and contribute to the partaking of their innovative skills.

Spectrum truly substantiates the maxim "It's not about ideas. It's about making ideas happen."

I would like to express my gratitude to all students, staff members as well as editorial board members for their persistent support throughout the progress of this bulletin.
